

Healthcare HITECH Privacy and Security Summit

In Conjunction with

The Fifth Annual Information Security Summit

The Growing Cyber Threat: Protect Your Business

This event will bring together leaders in Privacy and Security within government and private industry for a day of collaboration, networking and presentations by leading Privacy and Security professionals. You will learn from experts what you need to know to comply with new HITECH rules and OCR investigations.

Keynote Speaker **Howard Schmidt**

White House Cybersecurity Coordinator, Retired
Former ISSA International Board President

According to the Open Security Foundation's DataLossDB, which tracks the loss, theft, or exposure of personally identifiable information, out of the 1,520 total incidents reported last year, 327 occurred in the medical industry, making it the most widely breached industry in the United States.

HIMSS (Healthcare Information and Management Systems Society) Southern California, has partnered with the Los Angeles Information Systems Security Association to present [The Healthcare HITECH Privacy and Security Summit](http://www.issala.org/summit/healthcare-hitech-privacy-and-security-summit/), Tuesday, May 21, 2013, 7:30am – 6:30pm, at the Universal City Hilton.

<http://www.issala.org/summit/healthcare-hitech-privacy-and-security-summit/>

The Summit provides an excellent opportunity to learn how your peers are handling important privacy and security issues arising from HITECH, such as data breaches, compliance, and mobile device security. The Summit provides a collaborative environment where attendees and speakers can network, share experiences, and learn from one another.
